

SNOM M100 Series

Easy to learn & Easy to use!

M10 AND M10R HANDSETS

For a high performing office phone, the M10 and M10 R are two perfect devices for your business. The M10 KLE and M10R KLE are two cordless handsets that will make it easier to manage incoming calls. Additionally, both adds water resistance and shock resistance, perfect for businesses who may take the cordless handset outdoors.

M18 CORDLESS DESK SETS

With the desk set's large display screen, you can access programmable feature keys and customize settings. It can be moved around whenever and wherever you want. The device does doesn't need plugs or power outlet required.

M100 KEY LINE SIP DECT SERIES

Answering and transferring calls have never been easier! With the M10, you will have an improved call handling with the key system emulation. You will answer incoming calls, hold calls, and pick up a call on hold from the handset with a simple press of a button.

EASY TO LEARN & EASY TO USE

With the M100 series, it will be easy for your employees to handle multiple calls, and they will know who's on hold to attend them immediately. With the key-line mode of operation, anyone will be able to place a call on hold by just pressing a button.

EXTENDED RANGE

With up to 500 feet range, your team can go as mobile as they need in your bustling business. Featuring DECT technology between handsets and the M100 base station, don't worry about losing any call while walking around your workplace. The series supports up to eight SIP lines or accounts, and can handle six concurrent calls.
