## **Star Codes and Features**

## Concept

Many features in the WebCentrex platform are controlled by dialing the star key in conjunction with a 2 or 3 digit code. The default star codes are listed below.

## **Reserved Number Space**

Certain 3-4 digit extensions should NOT be used. Please be aware of the <u>Reserved Number Space</u> page to avoid any conflicts with dial translations.

Star Code	Feature Description
***	Dynamically Park a Call (in the 701-709 range)
*{parking lot}	Park a Call (to a specified park ext)
*35{ext}	Extension Pickup - Answer a Call that is ringing at another extension
*36	Domain Pickup - Answer a Call that is ringing within the same domain
*37	Department Pickup - Answer a Call that is ringing within the same department
*38	Self Pickup - Moves an active call to another extension owned by the Same User. (Dial from the idle extension to steal the active call).
*40	Activate Call Forwarding
*41	Set Forward Busy Destination (This feature will only forward to Device or External Number, forwarding to a user such as an Auto-Attendant must be done in the portal)
*42	Set Forward No Answer Feature
*44	Hotdesking (Log In) - Requires User Login and Password.

*45	Disable Call Forwarding (for Hotdesking)
*46	Hotdesking (Log Out) - Requires Password of current logged in user.
*48	Ask caller to enter PIN before connecting call
*49	Ask caller to enter extension # before connecting call
*50{ext}	Auto Answer/Intercom (3 or 4 Digit Ext) <i>This feature does not work with SLA.</i>
*55{Parking Lot}	Retrieve a call from a Call Park Queue
*61	To Voicemail - Unauthenticated
*62	To Voicemail - Password Only
*66<10 or 11 Digit phone number>	Route Call Off-Net. This feature will route a call out through a carrier, instead of staying on Network.
*67<10 or 11	To Connection w/ Privacy DID 11 Digit
